CONSTRUCTION AND IMPLEMENTATION COMPANY

We make the future progress

Nodeshe company was established in 1979 in Iran, aimed to grow an organization in the region and to participate in the large scale constructional and developmental projects.

Central office: no 37, next to Khoramshahi alley, Sarab street, Kermanshah.

From the beginning, this company could assemble expertise and professional staff, as a result gained a high potential to take precise tasks, so to the present, in case of construction buildings, industrial, medical have implemented several projects.

Nodeshe company was established to participate in mega projects and engineering projects, and completed many industrial, constructional (academic-official, medical), and engineering projects.

Specific works:

- Medical projects and hospitals
- Performing huge projects such as special university buildings and official
- Providing innovative methods and materials for the complex and unions
- Performing ways, railways, airports ...

We hope to play a positive role in building the future of the region.
