● INTRODUCTION

Sacookar is one of the leading privately owned Engineering and Construction Company, operating throughout Middle East with three decade of prosperous experience in providing outstanding services and technical expertise.

We are specialized in ground works, road works, reinforced concrete, industrial foundations, pipeline, sanitary and sewer system, buildings and design using variety of workforces.

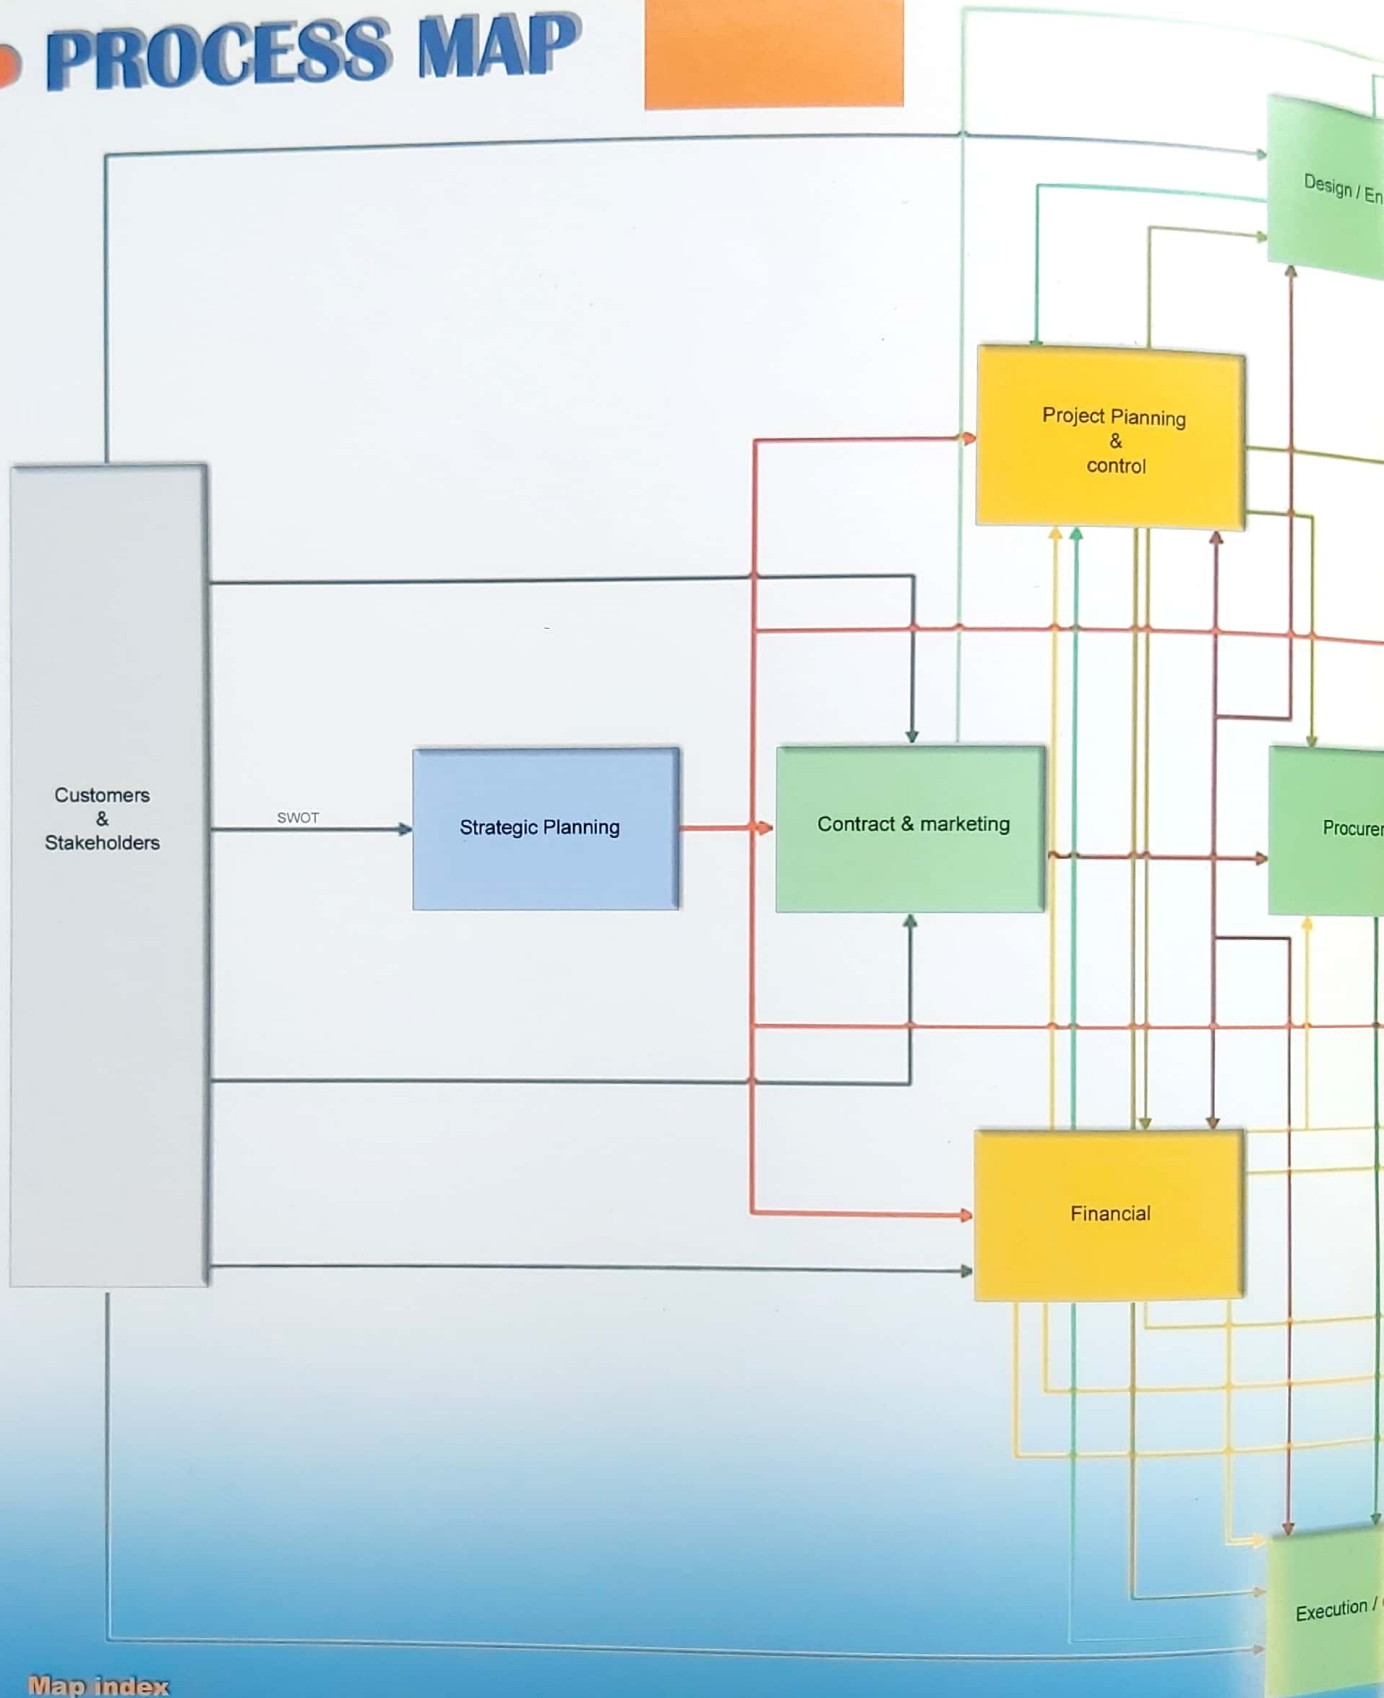

We have the capacity to undertake major contracts in all construction sectors.

Sacookar construction company was established in 1982 and registered in Office of Corporation and Industrial Ownership of Iran under the License No.44215. Iran's Management and Planning Organization has ranked us the highest in the country's Contractual Services.

Sacookar's primary objective is to carry out projects according to the schedule, within the allocated budget and high quality.

We are strongly committed to HSE, QMS issues.
